Subject: RE: Possible Statement

This is about GenX (a chemical replacement for Teflon) being found in the water from Cape Fear Public Utility Authority. Spectrum News is a 24/7 cable news channel local to Rochester, NY. Given that, I'm planning to send to the region.

Subject: Possible Statement

Hi,

My name is Kendra Douglas and I am a reporter for Spectrum News. I am doing a story today on the chemicals found in CFPUA's water. I wanted to see if EPA has released a statement regarding the findings of GenX and how serious it can be to the health of those drinking the water on a regular basis.

Thanks and hope to hear from you soon.

Kendra Douglas, Spectrum News
